About

Hello, I'm Rafi, last year student at Universitas Brawijaya currently taking role as a Full-Stack Web Developer with experience developing and maintaining Web Application using various languages, frameworks and databases such as Javascript, PHP, React.js, Laravel, Express, Node, Next.js and DBMS such as MongoDB, MySQL and PostgreSQL. I'm also experienced in deploying application to Vercel and Heroku, and uses cloud database like Amazon RDS, MongoDB Atlas and Clouinary. I also extensively used Git version control and almost all of my projects are stored at Github or Gitlab repository

Work Experience

PT. Rastanura Rayani Saputra

Nov 2022 - 2023

Web Developer Intern

- Created Web based Information System for managing company's data. The IS is developed using Next.js and MongoDB.
